# THE LAST GREAT UNDEVELOPED SHORE PROPERTY

THE RISE OF THE TIDE

The TIDE of OPPORTUNITY is at the FLOOD at Long Point. Are you going to allow that tide to recede? Are you going to occupy the position of the man who refused an Ocean Beach lot at \$500 and has since seen them sell at \$5,500?

GOLD OUT OF SAND

There are skeptics, of course, there are. There are always those who will not see beyond their nose or think beyond established facts. "It can't be done," they say; it is too large an undertaking. Why, it's the old story of making gold out of sand." Nevertheless, there are those who have faith - to these we sold out our entire first edition last season. These are the people who want to get ahead in the world—the thinkers. You have your last chance—our second edition at last year's prices.

The secret of making gold out of sand is to first put gold into your sand. That is our secret of success. That is what we are doing. The owners of Long Point are all moneyed men-they take a just pride in their property -they are pledged to make great improvements-these improvements are under way.

GROTON LONG POINT

Projecting one and one-quarter miles out into the Sound with 3 miles of water frontage, is the finest property on the Connecticut coast. A nice Clubhouse (for use of purchasers only), a pier with 12 feet of water, 2 water plants, several miles of winding roads and a great board walk, 10 feet wide, and extending one-half mile along the water front, are all being built. Improvements contemplated are a trolley line through the property and theatre a mile from the residence section. The \$1,000,000 BEAR THIS IN MIND

Long Point is a restricted property both as to the character of people sold to and to buildings. Isn't that the sort of place you want for your summer home? The population of this country is increasing every year more people are going to the seashore, but shore front property cannot increase a single foot. This spells monopoly for those who own il.

Once in a life time is a new beach started think of this seriously. You have money idle in Savings Banks at 4 per cent. Come to Long Point, study the situation, then ask yourself if an investment in this new beach offers a sane, clean cut, safe business proposition. It takes a life time to double your money in a saving bank. You should do so in a few years at Long Point. The best proof of words is a study of how we have made good our former words by deeds. Isn't it worth while to look into this? Say-Brooke Manor Beach, Conn.; Boscobell Island, in Hudson River; Eastwood, Long Island; Haworth, N. J.; these were all promises that were fulfilled.

#### PLOTS 50x150 FEET, \$195 UPWARD 10 PER CENT. DOWN AND

\$4.00 MONTHLY Tents or bungalows can be crected when the first payment is made. Sensible restrictions covering nationalities and buildings are for the protection of everyone. We plan to profit by the mistakes of other beaches.
